- Local technical support

ADVANTECH

- Quantum Automation is pleased to announce that Advantech UNO Computers and Flat Panel Monitors now have a 2 year warranty!
- The UNO Computers are Fanless and have no Internal Cabling Design, therefore they are more rugged and last longer. Yea!
- The Flat Panel Monitors are designed to be used with the UNO's for HMI or SCADA applications
- Use them seperately or use them together with the UNO+FPM Integration Kit
- Contact Quantum Automation for additional configurations and/or data sheets
