

Ignition and Moxa.

A Winning Combination.

With Ignition software and Moxa hardware, you have a powerful and cost-effective combination to address your HMI and IIoT requirements. Moxa and Ignition make it easy for you to access critical data from your devices and machines.

Ignition!
by inductive automation

- Wide support across platforms, devices, and databases
- Unlimited tags, clients, designers, and connections

Moxa MPC-2070 Panel PC
1.46 GHz Intel Atom processor
8 GB RAM, 64 GB storage

Moxa UC-8112A IIoT Gateway
1 GHz ARM9 processor
1 GB RAM, 8 GB storage

- Easy modern HMI solution for Ignition users especially in outdoor or Class 1 Div 2 environments
- Supports free web-based Ignition Vision client or Ignition Edge Panel for local machine control
- High brightness capacitive touch screen (1000 nits)

- Easy Verizon or AT&T LTE connection to devices in remote, distributed locations including hazardous areas (Class 1 Div 2)
- Supports Sparkplug or Ignition Edge MQTT module with automatic tag creation, publish/subscribe, report by exception, and field protocol support
