

MXstudio Industrial Network Management Suite

Industrial network management suite for installation, operation, maintenance, and troubleshooting

- An all-in-one toolset for installation, operation, maintenance, and diagnostics stages of the network lifecycle
- MXconfig, MXview, and N-Snap for easy and quick industrial network management
- Maximized productivity with Moxa industrial Ethernet solutions

Introduction

Moxa's MXstudio industrial network management suite combines all the tools you need throughout the network lifecycle into one toolbox, including MXview industrial management software, MXconfig industrial network configuration tool, and other utilities. Whether it is for configuration, monitoring, maintenance, or troubleshooting, the all-

in-one MXstudio software suite has a tool for every task. In addition, MXstudio's three key benefits, easy configuration, smart visualization, and quick troubleshooting, are designed to meet the demands of industrial automation networks.

MXstudio's Offerings

MXconfig Industrial Network Configuration Tool

- Mass configuration function to reduce setup time
- Topology analysis to eliminate manual setting errors
- Configuration overview for efficient management

MXview Industrial Network Management Software

- Auto discovery of network devices and physical connections
- Event playback for quick troubleshooting
- Color-coded VLAN/IGMP groups and other visualized network data

N-Snap Industrial Network Snapshot Tool

- A standalone data collection tool to take network snapshots for quick troubleshooting
- Compare network and device data, and highlight the differences

System Requirements

CPU	2 GHz or faster dual core CPU
RAM	2 GB
Hard Disk Space	10 GB
OS	Windows XP Professional, Windows 7 (32/64-bit), Windows Server 2008 (32/64-bit)

Ordering Information

A free version is now available for download at Moxa's website.

Supported Devices

Detailed model names are available in each product datasheet. Or check Moxa's website for the most up-to-date information.
